1569252845	Dynamic Mining of Users Interest Navigation Patterns Using Naive Bayesian Method		Khosravi
1569253849	M3-Based Executable Architecture Modeling Approach	Feng	Ni
1569256477	Interval Fisher Discriminator	Jafar	Mansouri
1569256969	Pattern Matching Approach Towards Real-time Traffic Sign Recognition	Hasan	Fleyeh
1569258177	A User Level Markov Model for Service Based CRRM Algorithm	Leijia	Wu
1569259097	Preliminary Study of a New Approach to NMF Based Text Summarization Fused with Anaphora Resolution	Nowshath	Kadhar Batcha
1569259781	Gabor Wavelet for Road Sign Detection and Recognition Using a Hybrid Classifier	Younes	Rakhshani Fatmehsari
1569259935	Selecting a Reliable Steganography Method	Hedieh	Sajedi
1569260527	Buffering Study over Intermediate Hops including Packet Retransmission	Khalid	Darabkh
1569260539	Prediction Model of Reservoir Fluids Properties Using Sensitivity Based Linear Learning Method	Sunday	Olatunji
1569260543	Quantifying Quality of Service Differentiation for WiMAX Networks	Amir	Esmailpour
1569260547	Anticipation the Consumed Electrical Power in Smart Home Using Evolutionary Algorithms	Ahmed	Elmahalawy
1569260583	Vehicle Detection Using Morphological Image Processing Technique	Aisha	Ajmal
1569260593	On the Study of Overhead Reduction for Confused Document Encrypting Schemes	Quincy	Wu
1569260595	Evaluation of a Cross-Layer Modification to the DSR Routing Protocol for Wireless Mesh Networks	Mustafa	Ramadhan
1569260613	Content-Aware Selective Reliability for DCCP Video Streaming	Michael	Schier
1569260667	A Novel Coloring Framework for Grayscale Images	Iyad	Jafar
1569260711	Secure management layer for JXTA-based information sharing systems	Yasseen	Al makady
1569260757	Intrusion Detection in Computer Networks by New Support Vector Data Description Methods	Mohammad	GhasemiGol
1569261149	A Novel DWT-SVD Based Watermarking Scheme	Vijay	Ayengar
1569261889	A Streaming Implementation of HD H.264/AVC Encoder on STORM Processor	Wei	Wu
1569261893	Segmentation of Low Quality Fingerprint Images	Hasan	Fleyeh
1569262187	Practical Software Project Total Cost Estimation Methods	Khaled	Hamdan
1569262329	Performance Improvement of Ad Hoc Networks Using Directional Antennas and Power Control	Wessam	Ajib
1569262627	Optimizing the k-NN Metric Weights Using Differential Evolution	Akram	AlSukker
1569262653	Power Allocation for Layered Multimedia Transmission via Broadcast Over Rayleigh Fading Channels	Mohammad	Shaqfeh
1569262655	Interactive Applications for Mobile TV	Muhammad	Saleemi
1569262755	Qualitative Comparison of Audio and Visual Descriptors Distributions	Stanislav	Barton
1569262781	Pattern recognition for classifying the condition of wooden railway sleepers	Siril	Yella
1569262799	Associative Classification Techniques for predicting e-Banking Phishing Websites	Maher	Aburrous
1569262957	Partial Image Retrieval using SIFT based on Illumination Invariant Features	Masaki	Kobayashi
1569263031	Multi-Connection TFRC Video Streaming in a WiMAX Environment	Salah M	Saleh AL-MAJEED
1569263043	Extracting Membership Functions by ACS Algorithm without Specifying Actual Minimum Support	Ehsan	Vejdani
1569263063	Language Specific Crawling based on Web Pages Features	Masomeh	Azimzadeh
1569263071	Multimodal Biometric Recognition Inspired by Visual Cortex and Support Vector Machine Classifier	Zohreh	Yaghoubi
1569263081	Application of TTCN-3 Test Language to Testing Information Systems in eHealth Domain	George	Din
1569263091	A Multi-Criteria Decision Making (MCDM) Network Selection Model providing enhanced QoS differentiation to customers	Haris	Pervaiz
