Clinical and teaching experience : 32 years (two years of this time was in USA and two years in Canada at the University of Toronto, Faculty of Dentistry, Department of Endodontics as visiting professor –sabbatical-, totally twenty three years in Turkey (with intervals related with academic activities and posts at the out of the country) at the University of Hacettepe, and since August 31,2014(5 years) in University in Sharjah,UAE Lecturing (and lectured) PhD, graduate and undergraduate levels and teaching in clinical, preclinical and advanced levels in different faculties and colleges,**mentorship and PhD advisorships**

Postgraduate lectures given: Pulp Biology, Endodontic Surgery, Operation Microscope and Micro-Endodontics, Retrograde filling and retro-filling materials, advanced endo-surgery, endo-perio relations, geriatric endo, imaging in endodontics, regenerative endo, guided tissue regeneration, pulp revascularization, regeneration and repair, lasers in endodontics

Undergraduate lectures given: Root canal morphology, principles of access cavities, access cavity failures, endodontic instruments, biomechanical preparations, procedural errors, root canal filling materials and techniques, rubber-dam use and saliva isolation, scope of endodontics, history of endodontics, endodontic surgery, endo-perio, geriatric endo, endodontic radiology, pulp development histology and biology, pulp metabolism and physiology, pulp-dentin complex, endo emergencies, classification of

pulpal and periapical diseases, root canal filling, biomechanical preparation, medication, irrigation, obturation, case selection, endodontic microbiology, retreatment, trauma.

Pre-clinical level: Access cavities, root canal preparation and obturation and temporary filling (endo lab-practical), endodontic radiology in pre-clinic, endo with rotary tips

Clinical level: Junior and senior grades (4th and 5th year) clinical teaching (clinical professorship), instructorship

Graduate and PhD level: Clinical advisorship-consultantship, endo surgery, challenging cases in endodontics, retreatment, post endodontic restorations, micro-surgery, management of broken instruments, failures and procedural errors (all clinical applications and lectures). Clinical teaching performance with fellow students, hands on together and case finalisation, case presentations and endo seminars, convener of graduate endo and **establisher of micro-endodontic unit in the Department of Endodontics Hacettepe University, Faculty of Dentistry, based on my granted Project.**

International lecturing:

More than 20 countries as invited and key note lecturer-speaker (see them under the related section)

Mentor and PhD advisorship: 4 PhD thesis advised and mentored, more than 40 graduate students trained clinically and theoretically, lectured in different topics and advised or co-advised for directed research activities and publications

Languages: English (full professional), German (intermediate), Spanish (basic), Turkish (native)

Memberships: Former member of *American Association of Endodontists* (Associate Member) (AAE 1999/2000 membership roster, page: 280), former member of *RCDSO* (Royal Collage of Dental Surgeons of Ontario) (RCDSO Listings 2000, Dentists and specialists in Ontario, directory, page: 85), **FDI**, **Turkish Endodontic Society**, Ankara Chamber of Dentists, Turkish Dental Association, **ESE (European Society of Endodontology)**, **Honorary Member of Kosovo Dental Association**, **IADR (International Association of Dental Research-European and UAE Divisions)**

Some Granted Projects

1-Limitations of conventional techniques on evaluation of procedural errors and diagnosis in endodontics: A comparative study with computerized imaging systems (research project) – **completed 2003,Hacettepe**

2- Evaluation of apical lesion prevalence on with and without root canal treated individuals using periapical index scoring system: A patient profile and success evaluation study **completed 2005,Hacettepe**

3-A comparison of the reinforcing effect of root canal filling materials on the fracture resistance of the roots- **completed 2005, METU**

4-Efficiency of endodontic microscope localizing the root canals: a comparative study with loupe and conventional technique (research project) **completed 2006,Hacettepe**

5-Investigation of cytotoxic and apoptotic effects of endodontic materials on human gingival fibroblast in cell culture (research project) **completed 2007,Hacettepe**

6-Comparative evaluation of bacteria cleaning effectiveness of different rotary instruments used in root canal shaping (research project) **completed 2009, Hacettepe**

7-An evaluation of antimicrobial effects of different medications used in endodontics (research project) started 2006

8-Kök Kanalı Şekillendirmede Kullanılan Farklı Dönen Aletlerin Kök Kanalıdaki Bakteri Temizleme Etkinliklerinin Karşılaştırılması Olarak Değerlendirilmesi: In Vitro Çalışma.

A comparative evaluation of the efficacy of different rotary instruments on bacterial removal from root canals: In vitro study. Completed 2010,Hacettepe

9-Medikament içerikli gutta perka koniler ve bazı kanal içi medikamentlerin antimikrobiyal etkinlikleri, sitotoksiteleri ve iyon salımlarının in vitro olarak değerlendirilmesi

In vitro antimicrobial effects, cytotoxicity and ion release of medicated gutta percha points and root canal medicaments. Completed 2012,Hacettepe

10- **The comparison of apical leakage and marginal adaptation of different retrograde filling materials depending on different retrograde cavity preparation techniques.** Completed 2014,Hacettepe

11-Farklı Kök Ucu Dolgu Maddelerinin Sitotoksik Etkilerinin Değerlendirilmesi

Evaluation of the cytotoxic effects of different retrograde filling materials.Completed 2014,Hacettepe

12- **“Seed Grant” of University of Sharjah “A Micro-Computed Tomography Study of the Internal Topography of Apical Constriction in Mandibular Incisors: Definition, Size, Form, Location, Canal Configurations and Extensions”** Some parts of the study will be finished/completed in **Malaysia Sains Malaysia University Kota Baru grant accepted in march 2015**
