

Ma'athir Salah

About Me:

Motivated & considerate, I'm dedicated at providing the best job possible at whatever I do. I've been told I make people comfortable in talking about issues that concern them which I think is an important attribute to have in the healthcare field.

My training experience ranges from in-patient hospital care to community education. I like to take part in jobs that benefits individual people or the society as a whole. Any job I take, whether its patient care or volunteer work, I give all my effort in doing the best I can.
