<p>SKILLS &amp; ABILITIES</p>	<ul style="list-style-type: none"> <li>• Excellent communication skills, developed through experience administrative work, teaching, and training.</li> <li>• Assist in the development of learning materials, courses syllabus, preparing schemes of work and maintaining records to monitor student progress and achievement</li> <li>• Effective researching skills proven through academic experience.</li> <li>• Participating in departmental and faculty seminars aimed at sharing research outcomes and building interdisciplinary collaboration within and outside the department.</li> </ul>
<p>TEACHING PHILOSOPHY</p>	<p>My teaching philosophy based on the integration of both classroom and practice learning experiences by creating a learning environment that fosters critical thinking and problem-solving. In order for the students to become engaged members of society, they need to understand not only the facts presented in books and lectures, they should think “outside the box”, I praise students not just for mastery of material but also for interpretation, effort, curiosity, and creativity. I lead by example, always working to improve my own skills in these areas as an educator.</p>
