## My Teaching Philosophy

After 8 years of teaching at all levels, my teaching philosophy emphasizes developing strong bonds with my pupils based on trust and respect, which creates a sense of community in the classroom.

I provide them the skills they need to thrive in a world that values information literacy, as well as the freedom to express themselves and space to develop as people and learners, all while establishing reasonable boundaries.

I am fostering a warm, secure learning environment in my classroom that is open to all students, recognizes their differences, and models appropriate behaviour. Every day, I share my enthusiasm and passion for learning with my students.

I am committed to lifelong learning and want to contribute to both my team of colleagues and the educational community.
