11. Oral Surgery BDS 4, University of Mosul (2007- 2009; 2013-2014)
12. Oral Surgery BDS 5, University of Mosul (2007-2009; 2013-2014)
13. MSc program, University of Mosul (2013-2014)

Teaching Philosophy

I believe that teacher should be energetic, enthusiastic, and develops a passion and vital interactions for aiding students to think critically. I am working on enhancing and continuous updating of the teaching methodology for better student perceptions. The situation of COVID-19 pandemic is a challenge but an opportunity to allows us to do online teaching with its several profits.

My objective of teaching is to create an environment that allows for supervised exploration. I strongly believe that teaching should be integrated, practical and linked to real world situations. Theories and practice or art and science, coexist with each other in the era of education. Students should be mentally prepared for the future challenges. Daily surgical clinical supervision, field trips, and additional hands-on opportunities are helpful to develop the dental student skills.

I strongly believe that the core of the life is the experience. I urge my students to explore outside of their comfort zones and take advantage of the opportunities available to them to gain new experiences.

Services:

1. Involved in School Dental Health Education. Fujairah, 2016.
2. Arrangement for students visit to Ajman Nursing home, 2017.
3. Arrangement for students visit to Liberty Dental Center to get in touch with the future practice management, 2018.
4. Consultancy services at Specialist Dental Center, University of Science and Technology (USTF) Center, 2018-2020.
