

# Printmaking Workshop

The workshop houses a comprehensive printmaking workshop containing printmaking facilities and equipment that enables students to partake in a full and diverse range of printmaking mediums. Students create monotypes, collagraphs, relief prints (such as linocuts and woodcuts), lithographs, screen prints, and intaglio prints such as etchings (non-toxic), photo-etchings, dry point printmaking and engravings. An Aquatint Booth is also included in the workshop.
