### Message from Chair, Board of Management Sharjah Clinical and Surgical Training Center Vice Chancellor, Medical and Health Sciences Colleges, Dean of the College of Medicine

As the COVID-19 pandemic continues to impact our daily lives, our center's commitment to train healthcare professionals has never been more important. We are privileged at CTC to have such a dedicated staff who continue to strive forward during this challenging time to deliver excellence in providing training and development programs.

We are committed to continue developing training programmes to facilitate healthcare professionals in the era of COVID-19 by offering Online and Blended courses at the center.

I thank all the companies, participants and faculties for being the part of CTC during this time and for their continuous support

Enjoy the newsletter and stay safe.

Prof. Qutayba Hamid

### Message from Director of Sharjah Clinical and Surgical Training Center

Welcome to the CTC newsletter for November, 2020, where we reflect on our activities held during the last month.

We have been continuously working towards providing quality training programs that will enhance the knowledge and skills of Health care professionals. We have adopted new methodologies to deliver these programs via online and blended learning.

CTC is also strictly following the precautionary measures by adhering to University of Sharjah COVID-19 Policies and Procedures.

I thank all the organizers, companies, participants and faculties for being the part of this center during this tough times.

Prof. Nabil Sulaiman

## Assessment and Initial Management of Major Trauma & Basic Laparoscopic Skills 5th October, 2020

This one day course has been designed to teach students a simplified and standardized approach to trauma patients. The premise of the EMST program is to treat the greatest threat to life first. It also advocates that the lack of a definitive diagnosis and a detailed history should not slow the application of indicated treatment for life-threatening injury, with the most time-critical interventions performed early.

## Challenging & complex Primary Knee- Attune

Clinical concepts, solutions case-based discussions and Workshop  
25th October, 2020

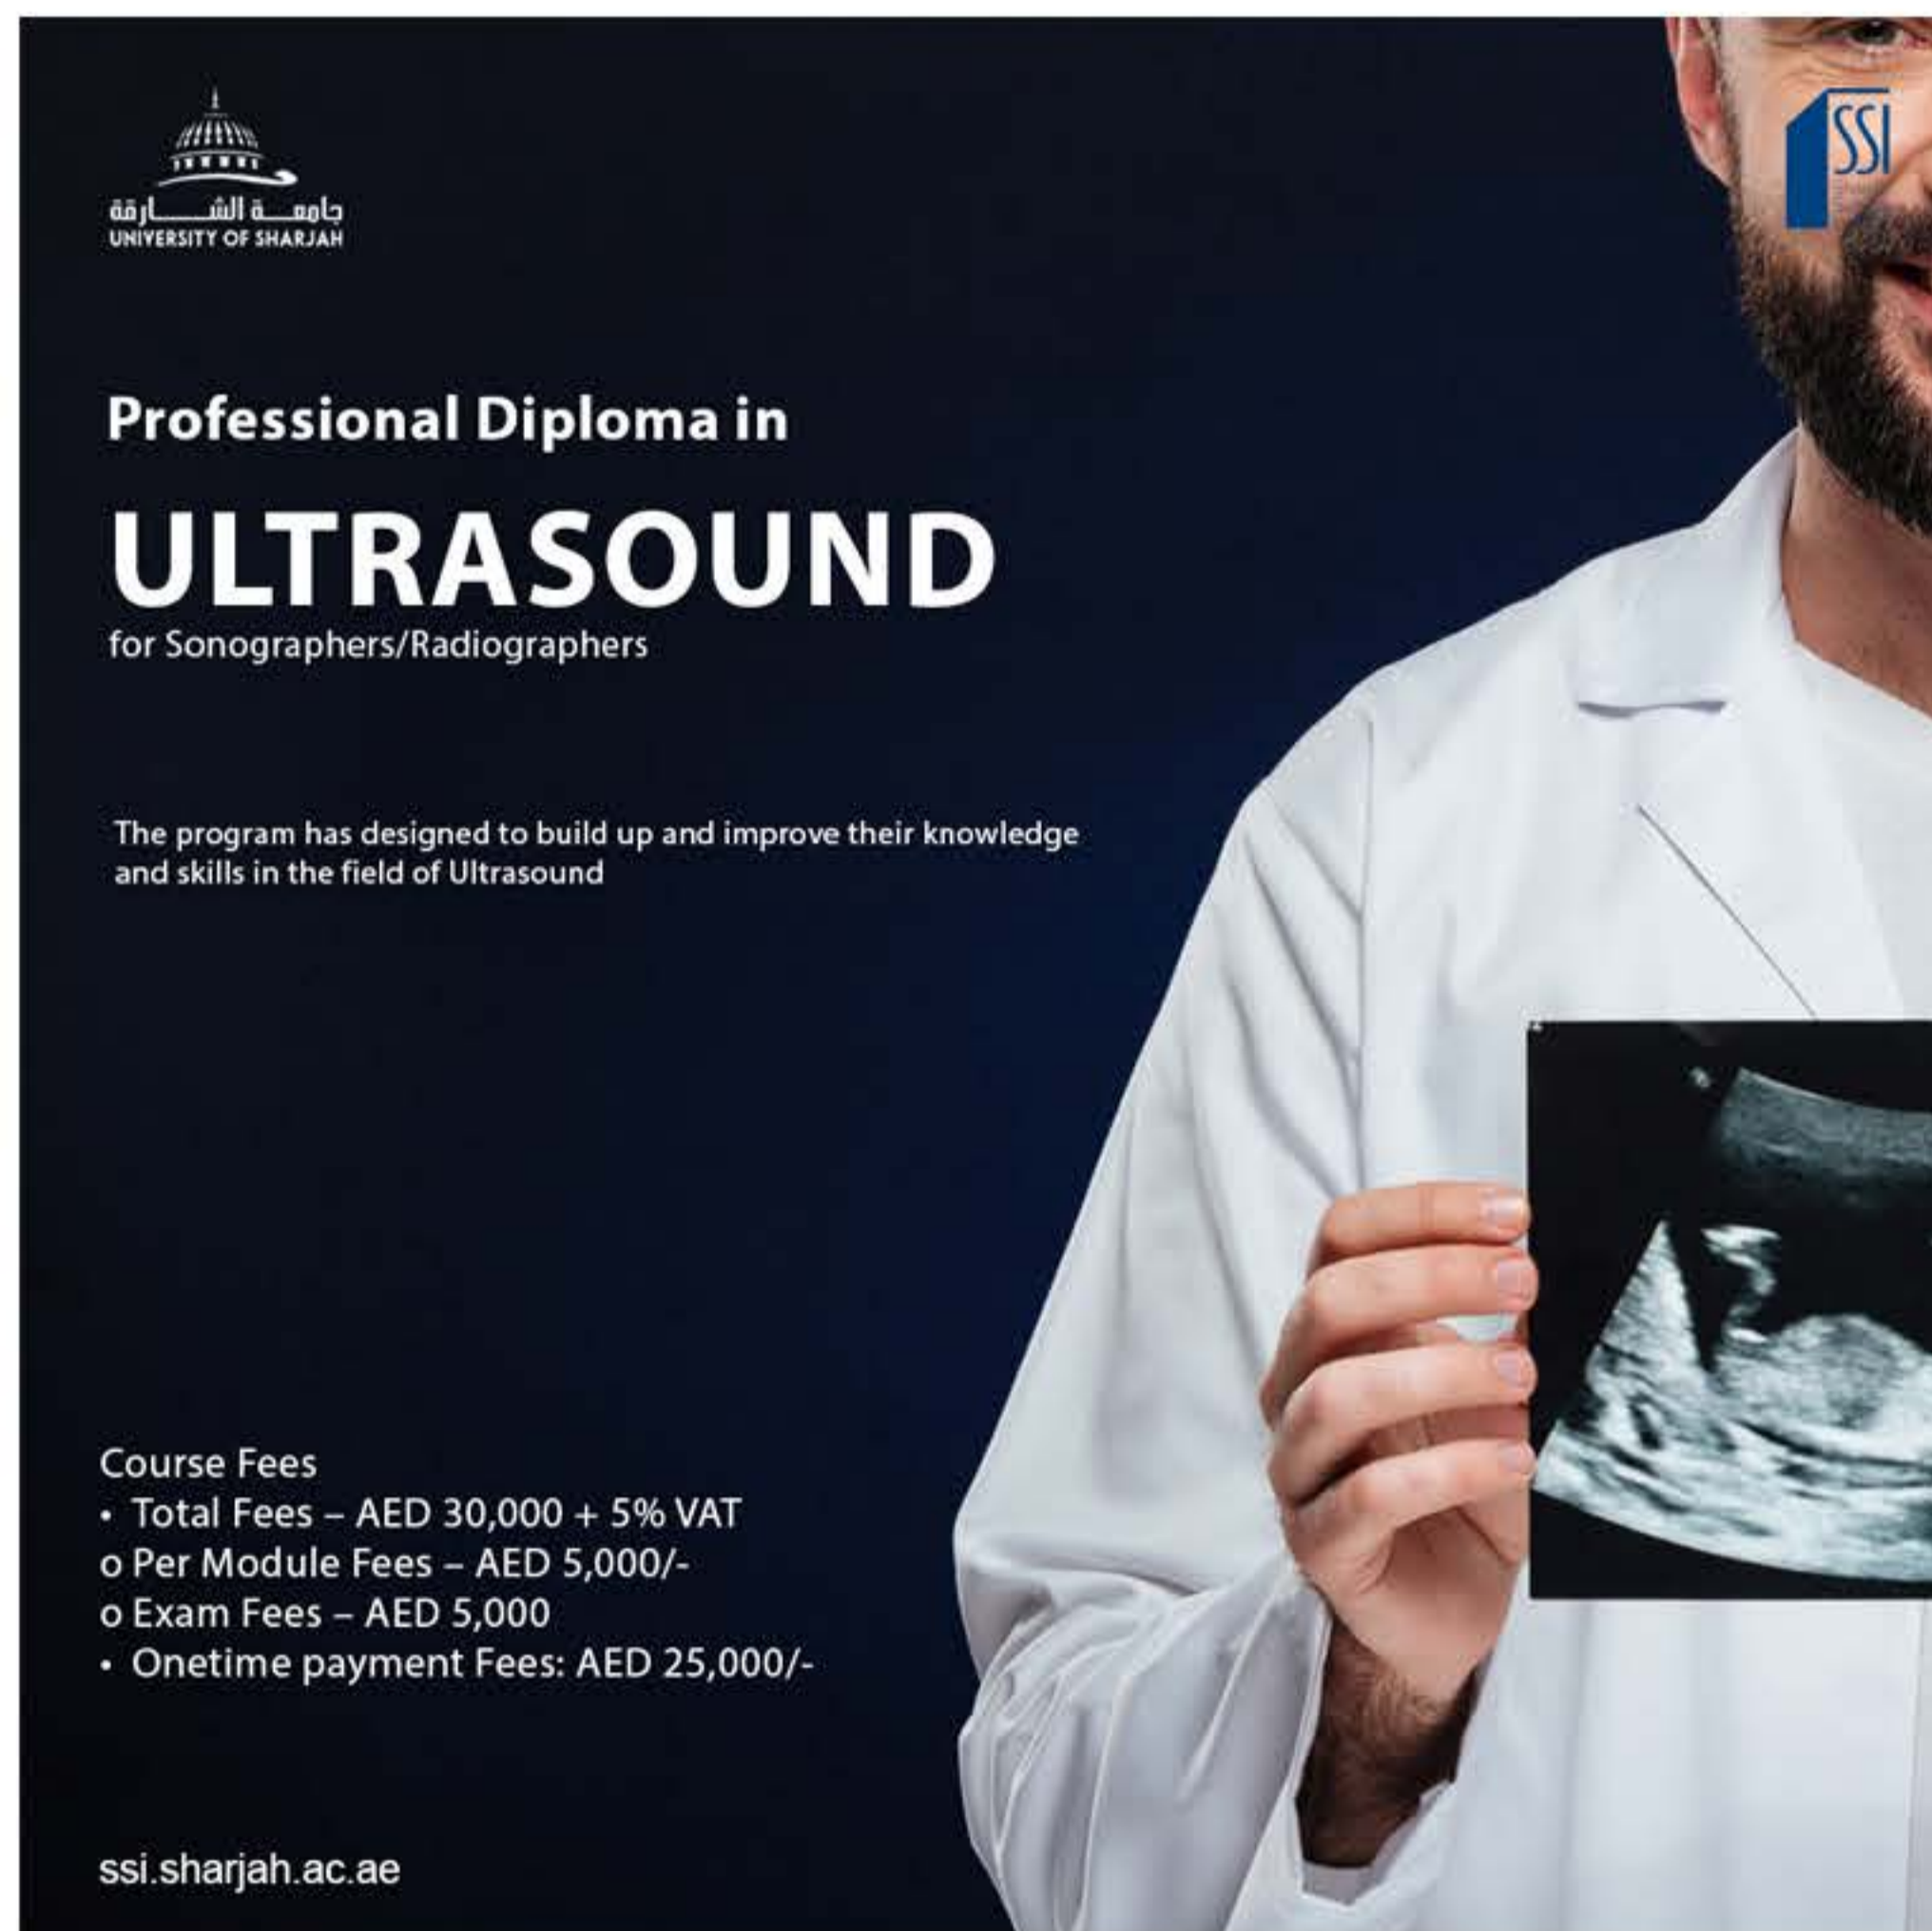

Johnson & Johnson Institute, organized Remote Blended Live course for experienced surgeons who wish to expand their knowledge and share their expertise in the challenging and complex area of Knee Surgery. A Live Workshop session was transmitted at one of our SSI Labs. The expert faculty leading this highly interactive Live Transmission guide participants through a series of interactive lectures, case reviews and open discussion sessions focused on the key challenges faced when managing a Complex TKA.
