## **TUFH PHILOSOPHY**

TUFH is based on relationships between organizations, people, and those collaborating around common interests. These relationships are not static, but rather

grow and develop from new members and future generations. TUFH is not an insular organization, but an ever evolving and inclusive network that embraces other organizations that strive to create educational practices, community health approaches, and partner on research to develop the evidence for what works. TUFH aspires to serve as a catalyst to promote positive change in local systems and actors. TUFH's model addresses problems by looking for what is working and why. This accelerates the process of positive change by occupying people with doing rather than dwelling on why it can't be done.

**The aim of TUFH annual conference** is to bring together international participants from different health and educational sectors to network, learn and teach. During the scientific sessions (workshops, oral presentations, TUFH Talks and TUFH documentaries) participants learn about a vast array of topics. At the conference there are always keynote speakers that capture the important messages related to the conference themes. During the conference on the move participants will go out into communities and see projects and organizations do the work and learn about in first hand. Multiple networking opportunities provide ample options to extend everyone's professional network. Lastly, the TUFH community is a tight group of people and attending a TUFH annual conference feel like a family reunion for our returning members.

**Other activities provided by TUFH includes:**

1. Global Network Conference: Towards Unity for Health (TUFH) since 1979
2. Regional Conference (in the EMRO region)
3. Bi-monthly seminar and faculty development workshops for all faculty members in educational institutions
4. iSTEP (International Student Training and Student Exchange Program) courses for students
5. Evaluating medical schools towards social accountability
6. Two refereed journals, one of them
