https://www.researchgate.net/profile/Nabil_Sulaiman

Citizenship: Iraqi / Australian

Nabil is the Head of Department of Family and Community Medicine and Behavioural Sciences, senior consultant , the University of Sharjah, a senior Fellow at the Department of General Practice, The University of Melbourne, Australia, and a senior research fellow at the Baker/ International Heart and Diabetes Research Institute, Melbourne, Australia.

Nabil has worked with distinction in several universities including Australia, the UK, Yemen and Iraq as well as Sharjah, winning several research and education awards. He is the principle investigator of several qualitative and quantitative diabetes and asthma research projects in Sharjah, UAE and Melbourne, Australia, including two NHMRC grants one on diabetes (the PEACH study: Patients Engagement and Coaching for Health) and the other on the effectiveness of spirometry in General Practice Asthma Care. Nabil has attended over thirty international/national conferences as speaker/ invited speaker. Most recently he was invited with colleagues from WHO centre from Pittsburgh University as speaker and facilitator for the “Diabetes and NCD Super course” at Alexandria Library January 2009. Nabil has published in distinguished Journals including the British Medical J and Medical J of Australia. Most recently in Sep 2011 Nabil was invited by INSEAD University- France and Rutgers University to speak at their “Global Thought Leadership Initiative on Global Health” in Fontainebleau- France.

Some of Nabil's overall current responsibilities are:

Education/ Teaching Innovation

- Plan, direct, teach and evaluate an innovative unique Family Medicine Clerkship. The program is conducted in seven health centres and Al-Amal Hospital and implemented by over 35 adjunct faculty. The program includes Clinical PBL, case write ups, prescription writing, referral letter writing, EBM reports and Ethics report as well as the standard family medicine learning and teaching in the ambulatory care setting. Overall 360 degree evaluation is positive
- Plan, design and implement community health program for Year 3 field training in preventive health settings including aged care, MCH, Preventive Health- MOH, Public Health Screening- PH clinics in Sharjah, industrial health clinic
- Coordinate community health activities in year 1 including all aspects of Health Awareness Week. This is innovative health promotion program that coincide with World Health Day theme on April 7th each year.
- Coordinate and teach Evidence-based health care for year 3 and year 5 students.
- Introduce an innovative applied ethics report based on real patient encounter and utilize GMC good medical practice virtual teaching/ learning virtual tools.
- Chair the Curriculum Committee, a planning and implementation committee which is dynamic and responsible for implementing the curriculum.
- Establish in year 2005 an innovative health promotion research project in year 2, a full- year research methods program, where students has to work in small groups and develop a proposal in semester one and collect, analyze and present data in semester 2.
- Direct and contribute to teaching clinical skills program for year 1, 2 and 3 as well as design, coordinate and conduct objective structured clinical examination (OSCE) for years 1, 2, 3, 4 and 5 (Family Medicine) and Final MBBS OSCE. I have conducted over 100 OSCEs during the last few years.
- Creates, teach, assess and direct the Communication Skills teaching and learning program
- Create, design and coordinate the Clinical Image and Video Assessment (CIVA) for year 2,3 and final MBBS exam. Lately clinical faculty have been involved to check the authenticity of stations,
- Write PBL scenarios, learning objectives and resources needed and several mini problems
- Other standard teaching/ learning according to the objectives of the PBL such as lifestyle, ageing, health promotion..etc. I always pride myself in innovative approach to teaching and learning.

Community Services

- * Contribute to the partnership between Sharjah and Baker/ International Diabetes Institute and consultants from University of Melbourne in the area of diabetes models of care
- * Member of National committees including Polio eradication and Family Medicine Board as well as research Committee of Musanada
- * Examiners of the Royal College of Surgeons-England (in communication skills and Physiology)
- * External examiner for the Arab Board of Family Medicine in Abu Dhabi and the Royal College of Surgeons of Ireland in Bahrain. More recently examiner with the RCS- England (Pilot Part B in Sharjah)
- * Play active role in the partnership agreement with the Royal College of Surgeons-England and in the implementation of three BSS courses and in the upcoming RCS part B examination.
- * Plan, develop and participate actively in implementing Medical Education courses including four workshops on learning and teaching in Ambulatory Care setting, bedside teaching, assessment in addition to short courses in research methods and EBM to GPs and primary care provider.
- * Coordinate the training of all new faculty on PBL facilitation through workshop and “learning by doing” through observation and feedback.
- * Coordinate elective training of Sharjah students internationally and nationally and coordinate international student’s elective training in Sharjah.
- * Play active role in the implementation of the MOU with Sharjah City for Humanitarian Services including setting and partly running the University medical clinic one session a week
- * Honoured with Membership of The Royal College of Physicians and Surgeons – Glasgow and appointed as an OSCE (part B) examiner for the Royal College of Surgeons – England.
- * Direct Sharjah Clinical and Surgical Training Centre (CTC/SSI) under the leadership of the Vice chancellor. Our motto is to make the CTC as the regional centre of excellence in clinical and surgical training.

Research Grants and publications

I have established the first research group at the college of Medicine “Diabetes and CVD research group” in 2006 and develop this into a research theme. As a result I won several research grants in the area of diabetes control and Epidemiology as well as asthma epidemiology. Research grants are:

- 2012- 2014 UAE Diabetes and Lifestyle Study (Survey)- Baker/ **IDI (AED 190,000)**
- 2012-2014 UAE Diabetes and Lifestyle Study (Survey)- Sanofi Avantis **(AED 1,200,000)**

- 2012- 2014 UAE Diabetes and Lifestyle Study (Survey)- MOH- GCC (**AED 500,000**)
- 2012- 2013 UAE Health Awareness Survey-Ministry of Health (**139,000 AED**)
- 2011- 2012 UAE Health Awareness Survey-Ministry of Health (**139,000 AED**)
- 2010- 2011 UAE Health Awareness Survey-Ministry of Health (**139,000 AED**)
- 2009-2011 National Asthma and Allergy Epidemiology Study (Bassam Mahboub, Nabil Sulaiman (**AED~200,000 = \$50,000**))
- 2008 – 2009 Anxiety and depression in diabetic patients in Sharjah PHC centres (UOS) (**90,000AED**).
- 2006 – 2009 Diabetes Research Group funded by Sharjah University (UOS) (**80,000 /year**)
- 2007 – 2008 Diabetes KAP in Sharjah funded by the University of Sharjah (UOS). (**11,000 AED**)
- 2005 – 2007 (Abramson M, Thein F. Sulaiman N). The role of spirometry in managing chronic respiratory diseases in general practice. NHMRC- GP clinical Research Grant (**\$474,000 USD**)

Other research related activities

- Supervise and examine Master’s student research theses
- Research Grant reviewer for the NHMRC and Diabetes Research Trust
- Journal reviewer for the International J of Collaborative Research on Internal Medicine & Public Health.
- Most recently in Sep 2011 Nabil was invited by INSEAD University- France and Rutgers University to speak at their “Global Thought Leadership Initiative on Global Health” in Fontainebleau- France. In between the two conferences I will be researching a template on the impact of the educational activities on workplace.

ACADEMIC & PROFESSIONAL QUALIFICATIONS

2011 FRCP (Fellow of the Royal College of Physicians-Glasgow, UK)

2008 FFPHM (Fellow of Royal College of Physician- Faculty of PH, UK)

1989 PhD in Community and Family Medicine

Department Community Medicine, Ninewells Hospital & Medical School

University of Dundee, Dundee, UK DD1 9SY

Thesis title:

A cohort study of the relationship between maternal alcohol consumption and pregnancy outcome.

1984 Master of Public Health (MPH)

Department of Community Medicine, Ninewells Hospital & Medical School, Dundee UK

Thesis title:

Viral haemorrhagic fevers with particular reference to Iraq

1993 Diploma of Epidemiology in outbreak investigation

CDC- Atlanta course and staff-conducted in Yemen

1988 Diploma in Child Health (DCH)

University College Dublin, Republic of Ireland

1976 Bachelor of Medicine and Surgery (MBCHB)

Faculty of Medicine, Mosul University, Mosul- Iraq

1986-1988 Certificate(s) in Medical Education

Effective Teaching, Curriculum design, Assessment in Medical Education, Problem-Based Learning system from the Dundee Centre for Medical Education, Dundee University, Scotland, UK

2008 Certificate in Social Epidemiology (Social Determinants of Health)

Deakin University, Melbourne, Australia

2003 Certificate in Drug and Alcohol

Monash University and Southcity Clinic, Melbourne 2003 (participants and Presenter)

2005 Certificate in Child & Adolescent Psychiatry and Trauma psychology

Sponsored by University of Missouri International Centre for Psychological Trauma- March 2005, Ajman, UAE

Awards

- 2005 Diabetes Australia Research Trust (Plz see below)
- 2004 “2004 Asthma Research Award”(Plz see below)
- 2001 International Respiratory Disease Research Award from Glaxo Welcome (A\$240,000).
- 1984 Overseas Research Awards- Committee of Vice-Chancellors of the Universities of UK (\$18,000)

- 1986 Overseas Research Awards- Committee of Vice-Chancellors of the Universities of UK (A\$52,000)
- 1982-1988 MPH and PhD Scholarships (Ministry of Higher Education 1984-88) (A\$106,000)

Research Grants since 2000

- 2008 – 2009 Anxiety and depression in diabetic patients in Sharjah PHC centres (UOS).
- 2006 – 2009 Diabetes Research Group funded by Sharjah University (UOS).
- 2007 – 2008 Diabetes KAP in Sharjah funded by the University of Sharjah (UOS).
- 2007 – 2009 Establishing a diabetes database, funded by the University of Sharjah
- 2005 – 2007 Amount \$474,000 (Abramson M, Thein F. Sulaiman N). The role of spirometry in managing chronic respiratory diseases in general practice. NHMRC- GP clinical Research Grant
- 2001-2004 Amount \$250,000 (ND Sulaiman, T. Liaw, M. Abramson) Do small group workshops and locally adapted guidelines improve asthma patient's health outcomes? A randomised controlled trial. GSK Clinical Respiratory Research Award- GSK
- 2005 – 2007 Amount \$460,000. (Young D, et al). PEACH Study- Patients engagement and Coaching for Health.- a RCT. NHMRC- GP clinical Research Grant
- 2005 – 2007 Amount \$474,000 (Abramson M, Thein F. Sulaiman N). The role of spirometry in managing chronic respiratory diseases in general practice. NHMRC- GP clinical Research Grant
- 2002 – 2007: Amount: >\$520,000. Asthma Best Practice Model, HARP funded, Department of Human Service
- 2002 – 2007: Amount: 10% per year (\$75,000). Community Asthma Project "CAP" Evaluator ARP funded, Department of Human Service.
- 2003 – 2007 Amount \$500,000 DHS- HARP, Asthma Best Practice Model. Fund holder NDGP, (Sulaiman N, Bain P, Winter C, Liaw T, et al (Sulaiman is the manager)
- 2002- 2003 Amount \$240,000 GlaxoWellcome Trust International Clinical Respiratory Research Award. Asthma/ ENT trial in GP setting (Sulaiman N, Liaw T, Harris C, et al)
- 2003-2004 \$25,000 Telematic Trust Funds- Developing Asthma interactive CD. (Sulaiman N, Abramson M, Liaw T, Thein F)- 2003

- 2003-2004 Amount \$50,000 University of Melbourne and DOHA- CONDUIT- Collaborative Network and Data using IT (Liaw T, Sulaiman N, Tse J)
- 2001-2003 \$153,000 DOHA & GPCG- Fall risk assessment and management system (FRAMS)
(Sulaiman N, Liaw T, Harris C, et al)- 2002
- 2003- 2004 Amount \$42,000 TALMET Grant- University of Melbourne (Sulaiman N, Meehan C, Liaw T, et al)-
- 2003- 2004 Amount \$7,000 Diabetes in Turkish and Arabic Speaking Community in Melbourne: a qualitative study. (Sulaiman N, Young D, Furler J)- 2004-2005

Membership of Societies (current or past)

- Australian Association of Academic General Practitioners (AAAGP)
- Australian Public Health Association (APHA)
- Australian Epidemiology association (AEA)
- Australian Association of Health Promotion Professionals (aahpp)
- European Arab Doctors (ArabMed)
- Association of Medical Education in Europe (ASMEE)
- Iraqi Medical Association
- International Iraqi Medical Association
- Emirates Medical Association

EMPLOYMENT HISTORY

Sep 2005 – Present

**Associate Professor and Head, Department of Family and Community Medicine
The University of Sharjah, United Arab Emirates.**

**Senior Fellow, The University of Melbourne and Senior Research Fellow at Baker/IDI
research institute- Melbourne**

Duties

- Manage the department and planning all activities relating to community health and pre-clerkship clinical training program
- Chair the Curriculum Committee, responsible for planning and implementing problem-based and community oriented curriculum
- Coordinate community health activities in year 1 including all aspects of Health Awareness Week

- Establish in year 2005 an innovative health promotion research project in year 2, a full- year research methods and health promotion program, where students has to work in small groups and develop a proposal in semester one and collect, analyze and present data in semester 2.
- Plan, design and implement community health program for Year 3 field training in preventive health settings including aged care, MCH, Preventive Health- MOH, Public Health Screening- PH clinics in Sharjah, industrial health clinic
- Coordinate and teach Evidence-based health care for year 3 and year 5 students
- Direct and teach clinical skills program, responsible for planning and training year 1, 2 and 3 clinical skills program
- Design, coordinate and conduct objective structured clinical examination (OSCE) for years 1, 2, 3, 4 and 5 (Family Medicine) and Final MBBS OSCE.
- Design, direct, coordinate the Clinical Image and Video Assessment for year 2,3 and final MBBS exam,
- Coordinate Year 1 program, responsible for planning, implementing and evaluating year 1 activities
- Train new faculty on PBL facilitation through workshop and observation and feedback
- Facilitate PBL tutorials in year1,
- Write PBL scenarios, learning objectives and resources needed and several mini problems
- Coordinate preventive health activities including "World Health Day" and Community Health Program
- Participate in teaching and assessment of Arab Board in Community Medicine
- Teaching various Preventive/ Public health throughout the curriculum
- Participate in development and delivering short courses in research methods and EBM to GPs and primary care providers
- Participate actively in coordinating and running medical education short/ certificate courses on curriculum design, assessment and bed side teaching
- Coordinate elective training of Sharjah students internationally and nationally and coordinate international student's elective training in Sharjah.
- Contribute to the partnership between Sharjah and International Diabetes Institute and consultants from University of Melbourne in the area of diabetes models of care
- Play active role in the implementation of the MOU with Sharjah City for Humanitarian Services including setting and partly running the University medical clinic one session a week

- Winning several research grants in the area of diabetes control in Sharjah PHC, Epidemiology and medical education and asthma in Melbourne-Australia as the principle investigator and manager
- CME: Participate in coordinating and delivering over ten workshops in research methods, evidence-based health care and medical education.
- Faculty development workshops: organizing and participating in 2 workshops for Family Physicians and two for UOS hospital specialists.
- Direct Sharjah Clinical Training Centre
- Supervise and examine Master's student research theses
- Member of National committees including Polio eradication and Family Medicine Board as well as research Committee of Musanada
- External examiner for the Arab Board of Family Medicine in Abu Dhabi and the Royal College of Surgeons of Ireland in Bahrain
- Grant reviewer for the NHMRC and Diabetes Research Trust
- Journal reviewer for the International J of Collaborative Research on Internal Medicine & Public Health

July 2000 – 2005

Acting Director of Northern Unit, Senior Lecturer in Primary Care, Department of General Practice (& PH previously) The University of Melbourne, Australia

Duties

- Supervise PhD, Master's and Advanced Medical Science Students at the Department of General Practice
- Participate in teaching and assessment of MPH students
- Contribute to the design and implementation of OSCE
- Teaching various public health topics to undergraduate and postgraduate students
- Develop and deliver short courses in research methods and EBM to GPs and primary care providers
- Play a crucial role in various respiratory health initiative at the University of Melbourne (see www.asthma.unimelb.edu.au)
- Initiate the development of primary care networks at Melbourne in collaboration with various players
- Participate in developing Falls Risk Assessment and Management decision support system for primary care providers and consumers (www.falls.unimelb.edu.au)
- Coordinate several research programs as the principle investigator and manager

- Consultation with divisions of general practice to identify their Primary Care Research, Evaluation and Development-PCRED needs, perceived role and major issues with the PCRED initiative
- Organise focus groups with GPs to identify their roles, needs and major issues.
- Review existing literature on establishing research networks
- Evaluating different models of delivery of Primary Care Research and Development (PCRED) support to individual GPs and divisions
- Initiate and strengthen links with divisions of general practice, community health centres and other primary care providers such as nurses, pharmacists, dentists, psychologist and physiotherapists.
- Contribute to the partnership between DGPPH in the University of Melbourne, DGP, Monash University and Department of Rural Health in Shepparton
- Represent the Asthma/ Diabetes programs and the department in relevant meetings.
- Contribute to writing various submissions to DHAC, DHS and NHMRC.

August 1999 – June 2000

Community Medicine Specialist, Department of Community Health- Northwest Health Care Network/ Royal Melbourne Hospital

Affiliate Senior Fellow at University of Melbourne, Australia

July 1996 – July 1999

Medical Epidemiologist at the Cancer Epidemiology Centre, Anti-Cancer council of Victoria

October 1992- September 1995

WHO consultant and assistant professor in the faculty of medicine and health sciences and Director Centre for Medical Education Sana'a Yemen Republic

Duties

- Design and coordinate the post-graduate Diploma of Public health program for GP, run by WHO and ministry of Health- Yemen
- Offer advise to MOH and help design a diseases surveillance unit
- Teach general and communicable disease epidemiology and survey methodology.
- Establish centre for medical education in faculty of medicine in Sana'a.
- Organise strategic conferences such as population policy conference run by US-AIDS
- Train of medical students and diploma students in primary health care at the regional health centres.
- Supervise research projects of undergraduate and post graduate diploma students.
- Provide advice in infectious disease epidemiology to Ministry of public health.

July 1989- June 1990

Senior Epidemiologist at Preventive Services Division, Army Medical Services at Baghdad

- Surveillance of Infectious diseases, looking at weekly returns of communicable diseases from units based all over the country.
- Monitoring environmental indicators, such as Chlorine concentration of drinking water
- Requesting and collecting random testing of water quality e.g. concentration of infectious agents in drinking water and comparing the results with gold standard (e.g Ecoli, Pseudomonas, cholera, S.Typhi..etc)
- Issuing a monthly communicable diseases bulletin, showing important trends in the incidence of communicable diseases nationally
- Conducting site visits to ensure quality control

June 1990 - July 1992

Head of department of community medicine- Assistant Professor, Tikrit medical school (TUCOM)- Iraq

Newly established school-adapting problem based, integrated, students centred and community oriented curriculum.

Duties

- Contribute in managing the regional multi-disciplinary primary health care council's activities in the region.
- Organise field training of medical students in various primary health care setting.
- Contribute to Curriculum planning, coordination of small group interactive learning, assessment of knowledge, skills and attitudes based on predetermined objectives and other academic responsibilities, in addition to teaching research methods in community medicine.
- Plan and supervise research projects.

October 1984- June 1989

Researcher and PhD candidate- Department of Epidemiology and public health -Ninewells hospital and medical school- Dundee UK

Duties

- Design and implement a cohort study involving over 1,000 primigravida living in Dundee.
- Coordinate of the project and contribute in interviews.
- Liaison and network with GPs and staff at the antenatal clinic.
- Analyse & interpretation of data.
- Write PhD thesis and s.
- Present at scientific conferences.

1983 – 1984

MPH course and research in the department of Epidemiology and Public health Dundee

1976 - 1983

Medical doctor training in hospital medicine and practicing as GP in rural area in Iraq

Duties

- Patients management for individuals and families.

- Managing a primary health care centre in semi-rural area- Al-taji.
- Environmental monitoring including water and food safety.
- Primary prevention activities including immunisation and health education.
- Coordinating the activities of mobile health team and the related health sub-centre.
- Outbreak investigation and management.
