Profile :

Currently, my objective and vision is to become a leading academic and clinician through attaining higher level of post-graduate education and training, and to employ my achievements in conducting high-quality research, and education of aspiring health-care students in higher education institutes, I have a particular interest in studying dental biomaterials properties, behaviour and science. My employment at the University Dental Hospital of Sharjah and College of Dental Medicine has further enriched my academic and clinical expertise. I'm very motivated and determined to seek and acquire an opportunity to fulfil my vision.
