CLINICAL EXPERIENCE

AUG. 2008 – TILL PRESENT:

- Faculty Member - College of Dental Medicine – University of Sharjah – UAE
- Oral Surgery Specialist – University Dental Hospital Sharjah (2010 – Till present)

During this period, I participated in the following Clinical Activities:

- 1- Direct Clinical Supervision / Teaching for the Fourth & Fifth Year Dental Students in the University Dental Hospital/Sharjah.**
- 2- Demonstrating various oral surgical procedures for the Fourth and Fifth Year students in the University Dental Hospital Teaching Clinic**
- 3- I MANAGED THE FOLLOWING CASES:**
 - Conventional & surgical extraction of teeth.
 - Impacted third molars (upper & lower).
 - Impacted canine.
 - Extraction of supernumerary teeth.
 - Management of odontogenic cyst and tumor.
 - Biopsy procedures (incisional excisional & fine needle aspiration)
 - Odontogenic infections including incision & drainage (Intra-oral & extra-oral)

- Endodontic surgery (anterior and posterior teeth)
- Oro-antral communication.
- Dental implants
- LASER assisted surgical procedures (frenectomy, tongue tie, gingival depigmentation & denture granuloma excision).

4- Private practice in **Center of Excellence in University Dental Hospital /Sharjah.**

In this clinic, my practice is mainly Oral Surgery including referred cases from my colleagues or other centers as well as patients who are medically compromised and need special preparation.

5- Internship Program Clinical Instructor since 2015

It is one year program where the newly graduated dentists attended the comprehensive clinic, my duties there are to manage and supervise conventional and difficult cases in oral surgery.

DEC. 2006 – JULY 2008

Specialist dentist in Legend Medical Center in Sharjah, UAE.

During this period, I dealt with so many dental problems at specialist and general practitioner level, including oral surgical procedures, conventional fillings, root canal treatments, crown and bridges, prosthodontics, periodontal treatment and special care for pediatric dental patients.

OCT. 2006 - NOV 2006

Process of getting Ministry of Health license (UAE)

OCT. 2005 – SEP. 2006

Private dental clinic (full time) in Iraq.

My private clinic located in the Baghdad city, it is well equipped and furnished, treated approximately 300 patients per month, dealing with a wide varieties of dental problems including emergency treatment of acute dental pain, swelling and infection, management of impacted teeth, oral pathologic lesions, management of referred cases from nearby dental clinics for those who are medically compromised and require special preparation, fractured teeth or roots, oro-antral fistula.

DEC. 2000 – SEP. 2005

Oral Surgery Specialist and Lecturer in Department of Oral & Maxillofacial Surgery in Baghdad Teaching Hospital, related to College of dentistry, University of Baghdad.

Through this period I did the followings:

- Academic work with the dental students (fourth and fifth year students) helping them with a varieties of oral surgical complications as well as a clinical work demonstrating for the students varieties of oral surgical procedures.
- Complicated extraction.
- Management of impacted teeth, including mandibular and maxillary third molars, impacted canines, supernumerary teeth.
- Management of peri-apical lesions.
- Management of intra and post operative complications including bleeding, oro-antral fistula, dry socket, dental infection.
- Management of different oral pathologic lesions through incisional , excisional or aspiration biopsy.
- Preprosthetic surgery including sharp ridge remodeling, alveoloplasty, vestibuloplasty with and without mucosal graft.
- Pre orthodontic treatment surgery including surgical exposure of an impacted teeth and frenectomy.
- Management of traumatized teeth.

OCT. 1997 – NOV. 2000

Postgraduate student (Oral & Maxillofacial Surgery Master Program) College of Dentistry, University of Baghdad

-This is a three years program which prepares the student for the practice of oral surgery at specialist level. It involves courses in basic science, medical science and dental specialties or relevance in the first year followed by theoretical course in Oral & Maxillofacial Surgery associated with clinical training course in oral surgery in the second year, while the third year is involves preparation of a thesis.

During the first year; medical clinical attachment achieved in Baghdad Medical Teaching Centre, the clinical attachment includes the following branches:

- From 15/3/1998 to 30/4/ 1998 in the General Medicine Department
- From 2/5/1998 to 15/6/ 1998 in the General Surgery Department
- From 16/6/1998 to 11/7/ 1998 with consultant general anesthetist
- From 12/7/1998 to 27/7/ 1998 in the X-ray Department
- From 29/7/1998 to 13/8/ 1998 in the Ophthalmology Department
- From 15/8/1998 to 27/8/ 1998 in the E.N.T Department
- From 29/8/1998 to 19/9/ 1998 in the Neurosurgery Department
- From 20/9/1998 to 5/10/ 1998 in the Dermatology Department

During this program, a research project was done, the project was entitled (Comparative study of the effect of diclofenac sodium and ibuprofen on post-operative complaints following mandibular third molar surgery), the study was conducted on 114 patients requiring surgical removal of mandibular third molar.

AUG. 1995 - SEP. 1997

Department of Oral and Maxillofacial Surgery in Baghdad Teaching Hospital, related to College of Dentistry, University of Baghdad.

Through this period I got training in minor oral surgery (as an operator or assistant) including conventional extraction (more than 200 patients), complicated extraction (more than 50 patients), and preparation of the patients who are medically compromised through medical consultation or laboratory investigation, management of impacted teeth (more than 30 patients), management of peri-apical lesions (more than 30 patients), management of intra and post operative complications and management of different oral pathologic lesions.

In addition, during this period I practiced general dentistry in a poly clinic centre as well as get clinical attachment with specialists in periodontology, orthodontics, and conservative dentistry.

AUG. 1994 - JULY 1995

Dental house officer in Baghdad teaching hospital, related to College of Dentistry, University of Baghdad, Baghdad.

Twelve months post-graduation dental experience.

The above teaching centre is the main and the largest teaching centre in the country.

ACADEMIC EXPERIENCE
