

Ibrahim I. El-Sharkawy*Professor**Sustainable and Renewable Energy Engineering Department**College of Engineering, University of Sharjah**United Arab Emirate**Tel: +971-6-5050939**E-mail : ielsharkawy@sharjah.ac.ae***Academic Qualifications****Ph.D., Kyushu University, Japan, 2006**

Department of Energy and Environmental Engineering, Interdisciplinary Graduate
School of Engineering Sciences

M.Sc., Mansoura University, Egypt, 2000

Mechanical Power Engineering Department, Faculty of Engineering

B.Sc., Mansoura University, Egypt, 1995

Mechanical Power Engineering Department, Faculty of Engineering

Employment History

Position	Starting Date	Ending Date	Employer
Professor	August 2021	Present	Sustainable and Renewable Energy Engineering Department, College of Engineering, University of Sharjah, UAE
Professor	July 2019	August 2021	Energy Resources Engineering Department, Egypt-Japan University of Science and Technology (E-JUST), Egypt.
Professor (on leave)	Nov. 2016	Present	Mechanical Power Engineering Dept., Faculty of Engineering, Mansoura University, Egypt
Promoted as a Professor due to the Excellence in Research "The First Case in Mechanical Engineering in Egyptian Universities"			
Associate Professor	Nov. 2011	Nov. 2016	Mechanical Power Engineering Department, Faculty of Engineering, Mansoura University, Egypt
Assistant Professor	Oct. 2006	Nov. 2011	
Assistant Lecturer	Apr. 2000	Oct. 2006	
Demonstrator	Dec. 1995	Apr. 2000	

Administrative Positions:

- **Chairman** of Sustainable and Renewable Energy Engineering Department College of Engineering, University of Sharjah, United Arab Emirate, Sept. 2021 – August 2022.
- **Dean** of Future Higher Institute of Engineering and Technology in Mansoura, Egypt, Feb. 2017 – June 2019.
- **Director** of support center for small and medium-sized enterprises at Mansoura University, Egypt, Oct. 2016 – Oct. 2017.

International Fellowships and Scientific Visits

Fellowship	Starting Date	Ending Date	Hosting Institute
Research Fellow	June 2013	March 2016	Japan Science and Technology Agency (JST), Core Research Evolution Science and Technology (CREST), Kyushu University, Japan
Visiting Associate Professor	March 2012		Solar Energy Research Institute (SERI), The National University of Malaysia (UKM), Malaysia
Postdoctoral Research Fellow	Sept. 2009	Feb. 2010	King Abdullah University of Science and Technology (KAUST) hosted by National University of Singapore
Visiting Researcher	February 2009		University of Warwick, UK, as a member of Thermal Energy Conversion, Conservation and Storage (TECCS) network between UK, China and Japan
Postdoctoral Research Fellow	Sept. 2007	Aug. 2009	Japan Society for the Promotion of Science (JSPS)
Postdoctoral Research Fellow	Dec. 2006	May 2007	Mechanical Engineering Dept., National University of Singapore

Academic Honors and Awards

- Listed among the top 2% of the world’s most-cited scientists, 2021, according to Stanford University, USA.
- Listed among the top 2% of the world’s most-cited scientists, 2020, according to Stanford University, USA.
- Listed among the top 2% of the world’s most-cited scientists, 2019, according to Stanford University, USA.

- Listed among top Engineering and Technology Scientists in United Arab Emirates, 2022 according to research.com website.
- **Award of Excellence from the First Class of his Excellency the President of the Arab Republic of Egypt, 2017.**
- State Encouragement Award in Engineering Sciences, 2016
- Mansoura University Encouragement Award, 2016
- Outstanding Contribution in Reviewing, Applied Thermal Engineering, Elsevier, July 2015.
- Silver Medal, 23rd International Invention, Innovation & Technology Exhibition (ITEX 2012), Kuala Lumpur, Malaysia, 2012
- The Best Presentation Award, The 3rd Asian Conference on Refrigeration and Air-conditioning (ACRA), Gyeongju, South Korea, 2006
- The Best Presentation Award, Japanese Society of Refrigeration and Air Conditioning Engineers (JSRAE), Tokyo, Japan, 2005
- Outstanding Paper Award, The 6th Cross Straits Symposium on Materials, Energy and Environmental Engineering, Pohang University, South Korea, 2004

Participation in Research Projects

1. PI of the project entitled “An innovative photovoltaic-biomass/adsorption based system for cooling, fresh water, and power generation for Sustainable Building”, University of Sharjah, 2022.
2. PI of the project entitled “Solar Powered Adsorption-Based System for Atmospheric Water Harvesting”, seed project, University of Sharjah, 2022.
3. Co-PI of the project entitled “Project for Capacity Development on Energy Efficiency and Conservation in Arab Republic of Egypt” Funded by Japan International Cooperation Agency (JICA).
4. Co-PI of the project entitled “Low-grade heat recovery for absorption chiller and desalination from concentrated solar-powered steam power plants in Egypt” funded by Egypt-UK Newton-Musharafa Fund: Institutional Links
5. Member of the project entitled “Geothermal Energy Capacity Building in Egypt-Joint Project”, Erasmus-European Union.

6. Consultant of the project entitled “Solar Driven Water Treatment System using MOF Adsorption integrated with Nanomaterial Pre-Treatment and Real Time Water Quality Sensor for Egypt”, funded by Egypt-UK Newton-Musharafa Fund: Institutional Links.

Research Interests

1. Solar cooling systems
2. Solar-powered multigeneration systems
3. Refrigeration and air-conditioning
4. Solar energy-driven seawater desalination
5. Atmospheric water harvesting
6. Thermal energy storage using adsorption technology
7. Solar systems for energy-efficient housing
8. Thermally-driven hybrid adsorption-vapor compression refrigeration systems

Selected Supervision and Arbitration Thesis:

NO	Title	Remarks	
1.	Design and performance of a multi-stage sorption energy storage system	Supervision	On-going
2.	Performance enhancement of adsorption-based dehumidification system for air conditioning applications	Supervision	On-going
3.	Theoretical and experimental investigation of a compound parabolic solar concentrator to enhance performance of a photovoltaic system	Supervision	On-going
4.	Feasibility study of poly-generation system for energy, cooling and potable water	Supervision	Completed
5.	Experimental and theoretical investigation of decentralized desalination system	Supervision	Completed
6.	Thermal energy storage using adsorption system	Supervision	Completed
7.	Natural gas storage using adsorption technology	Supervision	Completed
8.	Dynamic characteristics of adsorbed natural gas storage during charging and discharging processes	Supervision	Completed
9.	Enhancing the productivity of solar still	Arbitration	
10.	Solar-powered portable apparatus for extracting water from air using desiccant solution	Arbitration	
11.	Extraction of water from Air using double slope condensation surface	Arbitration	
12.	Experimental and theoretical study on the performance improvement of an adsorption cooling system	Arbitration	
13.	Experimental and theoretical study of a hybrid adsorption cooling desalination system powered by solar energy	Arbitration	

Calling to Review Articles

Review scientific articles for the following journals:

1. Applied Thermal Engineering
2. International Journal of Refrigeration
3. Energy
4. Applied Energy
5. Energy Conversion and Management
6. Heat Transfer Engineering
7. Building Simulation: An International Journal

Teaching and Supervision Experience

I have taught a wide range of courses that mainly covers the topics of thermal engineering and solar energy, including fundamentals and applications. In addition to the classroom teaching and instruction:

- **I have supervised graduation projects** on solar driven adsorption cooling systems and adsorbed natural gas storage.
- **I served as a supervisor of thermal energy laboratories** at the Mechanical Power Engineering Department, Mansoura University. These laboratories deal with a wide range of thermal applications including solar energy, cooling systems and water desalination.

Courses taught in undergraduate program

Energy conversion
Solar heating and cooling
New and renewable energy
Refrigeration & air conditioning
Fundamentals of thermo-fluids
Thermodynamics
Heat transfer
Heat & mass transfer
Steam technology
Theory of combustion
Power plants
Combustion engines
Measurements & Measuring devices

Courses taught in postgraduate program

Energy Resources Engineering
Renewable energy
Solar Energy
Solar cooling and heating

Participation in Academic Accreditation

- Coordinate and manage the preparation for ABET Re-Accreditation for Sustainable and Renewable Energy Engineering Department

- Coordinator of Quality Assurance & Accreditation of Mechanical Power Engineering Department, Faculty of Engineering, Mansoura University, April 2010 – April 2011.

Training courses attended at Mansoura University, Egypt

1. Credit hours
2. Quality Assurance and Accreditation
3. Applying academic standards for educational program
4. Exams and students evaluation systems
5. Use of technology in teaching
6. Presentation skills
7. University management
8. Legal and financial aspects in university environment
9. University code of ethics
10. Conference organization
11. Competing for research funds
12. Managing research teams
13. International publishing of scientific research
14. Good practice in research QA and Accreditation (workshop)

Publications

i) Book Chapters

1. B.B. Saha, **I.I. El-Sharkawy**, Thermally powered adsorption cooling: Recent trends and applications, Chapter 2, pp 29-62, Heat Pipes and Solid Sorption Transformations, CRC press, Taylor and Francis Group, 2013, edited by L.L Vasiliev and Sadik Kakaç.
2. K.C. Ng, **I.I. El-Sharkawy**, B.B. Saha and A. Chakraborty, Adsorption desalination – a novel method, Chapter 9, *Handbook of Environmental Engineering*, **Vol. 13** – Membrane and Desalination Technologies, Humana Press Inc, Totowa NJ,USA, 2011, edited by Lawrence K. Wang, J. Paul Chen, Yung-Tse Hung and Nazih K. Shamma.
3. **I.I. El-Sharkawy**, B.B. Saha, K.C. Ng and A. Chakraborty, Adsorption equilibrium measurement methods, Chapter 5, pp. 165-200, *Advances in Adsorption Technology*, Nova Science Publishers, ISBN: 978-1-60876-833-2, edited by Bidyut Baran Saha and Kim Choon Ng.
4. A. Chakraborty, K.C. Ng, B.B. Saha, **I.I. El-Sharkawy**, Theoretical insight of physical adsorption for a single component adsorbate system, Chapter 2, pp. 21-66, *Advances in Adsorption Technology*, Nova Science Publishers, ISBN: 978-1-60876-833-2, edited by Bidyut Baran Saha and Kim Choon Ng.
